CO₂RE Laser

A carbon dioxide laser precisely removes outer layers of damaged skin to reveal the underlying skin which is smoother and younger looking.

Procedure is best for improving:

- Facial wrinkles
- Deep wrinkles
- Scars (surgical/acne)
- Stretch marks

Before

After

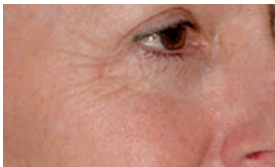

Fraxel® Laser Treatment

Fraxel laser is used for non-ablative skin resurfacing and rejuvenation, delivering remarkable results with minimal downtime.

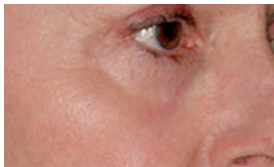

Procedure is best for improving:

- Skin tone and texture
- Brown spots / blemishes
- Fine lines by eyes/mouth
- Scars and stretch marks

Before

After

eMatrix™

Skin rejuvenation that is safe for all skin types. It is effective for fighting the signs of aging, scars and lesions.

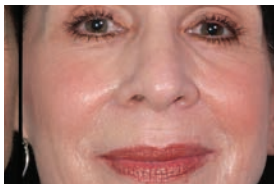

Procedure is best for improving:

- Acne scars
- Stretch marks
- Eyelid rejuvenation

Before

After

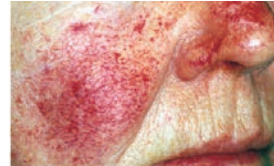

VBeam™ Laser

The gold standard for a wide variety of vascular skin conditions. Treatments are fast with no pain or downtime.

Procedure is best for improving:

- Facial spider veins
- Redness and rosacea
- Vascular birthmarks
- Scars and stretch marks
- Warts
- Acne

Before

After

Injectable Fillers

(Juvederm™, Radiesse®, Restylane®, Voluma®) Fillers are a popular and widely accepted form of therapy used to correct deep folds or lines in the face.

Procedure is best for camouflaging:

- Nasolabial fold lines (nose to mouth)
- Marionette lines (mouth to chin)

Before

After

Botox® Cosmetics

An approved treatment that temporarily relaxes the muscles around forehead or mouth.

Procedure is best for improving:

- Crows feet and frown lines

Before

After

CoolSculpting®

A non-surgical technology that targets and cools unwanted fat cells. No needles, surgery, or downtime.

Procedure is best for improving:

- bumps and bulges of stubborn fat
